Lead Suspender

1 Spill Response Bins

This Weatherproof Bin provides a highly visible storage location for spill control equipment and supplies. Protect the environment and prevent costly fines over spill incidents.

Features:

- > 200 Litres of Storage
- > Weather Proof Lid
- > High-Vis Yellow with bold Label
- > High Chemical Resistance
- > Tough & Resilient PE suitable for site conditions

2 Incident Response Cases

The Ultimate First Aid Response measure. Emergency Supplies and Equipment are safely stored until they are needed, the IRC is then easily transferred to the Incident Location.

Features:

- > 140 Litres of Storage
- > Weather Proof
- > Sliding Tray as Standard
- > Zinc Plated Hardware
- > Lightweight
- > Will not dent or corrode
- > "Site Tough" Construction

Construction Site Essential

Providing a practical solution to power lead issues on-site. This Two-Piece Stand can be erected and relocated with ease due to its unique tapered pole which fits positively into the base with little effort.

Features:

- > Highly visible orange finish
- > Meets recognised safe lead height of 2100mm
- > Extremely durable and impact resistant
- > Base holds up to 45kg of either sand or water
- > Concave base assists with stability
- > Inbuilt hooks to suspend barrier mesh

Standard Features

- > Threaded Inserts for mounting floodlights.
- > Coiling hooks for Excess lead
- > Easily assembled and disassembled, the base section features hand grips and large 2" bung for emptying ballast.

CODE	DIMENSIONS (mm)
SRB200	Spill Response Bin 200ltr
IRC	Incident Response Case
LSS	Lead Suspender

Handi Steps & Butt Tidy

1 Butt Tidy Receptacles

Keep entrance areas tidy, easily.

Features:

- > Opening size allows cigarette butts but deters use for other litter
- > Hooded opening keeps rain out
- > Low maintenance heavy duty
- > Large diameter base for stability

2 Handi Steps

This heavy-duty access solution provides generous step area for increased balance and safe operation.

Features:

- > Anti-Slip Tread on each step
- > Lightweight and rust-proof
- > High Density Polyethylene for rigidity
- > Built in handle for ease of relocation
- > Splayed feet and wide base for stability

Colours Available (BTR only)

- 1 Light Grey
- 2 Black
- 3 Mist Green
- 4 Wheat

Hose Reel & Drum Covers

1 Hose Reel Covers

A practical retro-fitted cover that protects reel, hose and nozzle from UV breakdown and weather damage.

Features:

- > Increases visibility
 - > Weather Proof
 - > Reduces unauthorised use
 - > Sizes to suit both 36m and 50m hose reels
- Removes unsightly hoses and uncoiling

2 Drum Covers

The ideal way to prevent contamination of drum contents and prevent top corrosion of drums stored outside.

Features:

- > Bright Yellow for vehicle operator awareness
- > UV Protected
- > High Chemical Resistance
- > Handy lid for old 205 Litre drums
