FREE DELIVERY to site
in Melbourne Metro area

Cleaner water with our mosquito-proof leaf screen.

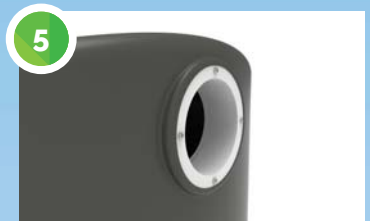

Unique flexible hoses supplied. Reduces hook-up time to save plumbing costs.

Door to conceal and protect the integrated pump and give you a neater-looking tank.

Two outlets come standard, so it doesn't matter where your drain is located.

Large 90mm overflow on both ends so tank fits snug to the wall & less pipework required saving your time and money.

Easy grip handle makes manoeuvring on site simple and not back-breaking

Got a complex build? No worries!
Our team can configure any tank combination.

Large range of tanks to suit your building site:
6,000L to 50,000L tanks • Underground tanks • Septic tanks
