

Do you know about the new Budget Tax Incentives for farmers? ...on a huge range of Polymaster products!

1. The Government will allow all primary producers to immediately deduct capital expenditure on water facilities such as tanks, troughs, irrigation, pipes and pumps.
2. The Government will also allow primary producers to depreciate over three years all capital expenditure on fodder storage assets such as silos and tanks used to store grain and other animal feed. [Read more](#)

And for small businesses! (this legislation passed the Senate yesterday!):

1. The Government's Small Business Instant Asset Tax Deduction on purchases under \$20,000 is applicable to businesses with an aggregated turnover of less than \$2 million. [Read more](#)

HURRY! Purchase your Polymaster products before June 30 to make it in this FY!

*Information is based on the legislation that has been introduced into Parliament, please note that some legislation has not yet been passed. [View this page for updating information on the progress.](#) *Incentives introduced to be effective from 7:30PM (AEST) 12.05.2015. *Tax rules apply, seek professional advice as to Polymaster products which apply for you.
