¹ STAINLESS STEEL FRAMES ALSO AVAILABLE

Polymaster's Industrial Conical Vessels provide the ultimate solution for processes and chemicals requiring cone bottom tanks.

All conical tanks have a steep 50° cone for maximum effectiveness. These vessels are constructed using

our Premium tank-grade PE material and sit inside engineered DuraGal frames. Frames can be modified in material type and height to suit any application.

These vessels can be manufactured to suit liquids with up to 1.5 Specific Gravity.

These vessels are used extensively for applications including Sludge clarification and thickening, Storing and dispensing dry powders, Storing and processing thick liquids, and applications requiring complete drainage.

CONICAL VESSELS SPECIFICATIONS

CODE	CAPACITY (Ltrs)	DIMENSIONS (mm)
MB60	600	1165L X 1165W X 1450H
